

## The Reith Building refurbishment at Gresham's

A guided site visit with Hudson Architects

Site visit on Tuesday 13<sup>th</sup> August 2024 at 4 pm  
at Gresham's School, Holt

The genesis of this large refurbishment project lies with the completion of the superb Dyson Building and the School having the opportunity to upgrade the former Science and IT classrooms. In September 2021, work started to scope and design a scheme to upgrade the East Wing of Big School (Phase 1) and the remainder of the Reith Building (Phase 2). The project's aims include – to restore the 120 year old East Wing to provide modern and up to date classroom facilities on a par with the Dyson experience; to upgrade the >50 year old Reith building to also provide modern classroom facilities; to enhance energy performance of the buildings; to provide new office space and most importantly a new second floor in Big School that links with the Reith second floor to provide a new exam and study space for pupils.

Hudson Architects will be conducting the site visit and available to answer questions.  
There will also be free onsite parking.

This event is available to members, free of charge, and numbers are flexible, please inform us of your attention to attend by emailing Jenny Inglis at [secretary@nfc.co.uk](mailto:secretary@nfc.co.uk).

Places are flexible and allocated on a first come first served basis.
